PERSONAL INFORMATION

I was first trained in carpentry, served the military afterwards, and worked in the airport security. Now at the crossroads of my career where my passion for informatics has encouraged me to study programming, seeing its relevance to our modern times, especially for startups in need of Web Developers. Hence I currently look for internship or a job that would allow me to put the technical skills I have acquired to practice.

TECHNICAL SKILLS

HTML / CSS JavaScript Node.js React React Native
Expo Express MongoDB Heroku Cloudinary
Netlify

PROFESSIONAL TRAINING
